

Braunston Cyber | Service Offerings

Penetration Testing as a Service (PTaaS)

PTaaS is a continuous, on-demand security assessment model that simulates real-world cyberattacks to identify and help remediate vulnerabilities in systems, applications, or networks.

Pricing Tiers:

Basic: \$2000/month - Quarterly testing

Professional: \$5000/month - Monthly testing with reports

Enterprise: Custom pricing - Continuous testing and remediation support

Cyber Security Assessment as a Service (CSAaaS)

CSAaaS is a scalable, outsourced solution that provides organizations with expert-driven evaluations of their security posture, covering threat detection, vulnerability analysis, and compliance readiness, without requiring in-house cybersecurity infrastructure.

Pricing Tiers:

Basic: \$1500/month - Annual assessment

Professional: \$3500/month - Bi-annual assessments with compliance checks

Enterprise: Custom pricing - Continuous assessment and audit support

Managed Security as a Service (MSSaaS)

MSSaaS is a comprehensive, outsourced cybersecurity solution delivered by third-party providers that continuously monitors, manages, and protects an organization's digital infrastructure, often integrating tools like SIEM, XDR, and endpoint protection to mitigate threats, ensure compliance, and support business continuity.

Pricing Tiers:

Basic: \$3000/month - 24/7 monitoring and alerts

Professional: \$6000/month - Monitoring, incident response, and reporting

Enterprise: Custom pricing - Full security operations center integration

Website Design and Hosting as a Service

Website Design and Hosting as a Service is a subscription-based model that delivers end-to-end website creation, secure hosting, ongoing updates, and technical support, allowing businesses to maintain a modern, high-performing online presence without managing infrastructure or design in-house.

Pricing Tiers:

Basic: \$500/month - Template-based design and hosting

Professional: \$1200/month - Custom design, hosting, and updates

Enterprise: Custom pricing - Full branding, e-commerce, and support
